Professional Summary

Full Stack Developer with 1+ year of professional experience building web applications using Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, and MongoDB. Experienced in REST APIs, authentication, application logic, debugging, and production deployment. Independently delivered a live client e-commerce platform with admin functionality and a centralized inventory domain.

Technical Skills

- **Languages & Frontend:** JavaScript, TypeScript, Python, HTML5, CSS3, React, Next.js, Tailwind CSS, shadcn/ui
- **Backend & Data:** Node.js, Express.js, PostgreSQL, MongoDB, Prisma ORM, REST APIs, JWT, Auth.js/NextAuth.js, Zod
- **Tools & Platforms:** Git, GitHub, Zustand, Neon, Vercel, Vercel Blob, Resend, Postman, Thunder Client, CI/CD, SEO, Agile

Experience

- **Junior Full Stack Developer | Infinite Pro Technology | Jul 2025 - Jul 2026**
 - Developed frontend and backend functionality using Next.js, React, TypeScript, Node.js, and Express.js within established application architectures.
 - Implemented authentication and session workflows, validation logic, reusable utilities, and application business logic based on project requirements.
 - Integrated REST APIs with frontend workflows and transformed application data using JavaScript and TypeScript.
 - Built and maintained reusable UI components using React, TypeScript, and Tailwind CSS.
 - Debugged application behavior, resolved implementation issues, and maintained existing features across the codebase.
 - Collaborated with developers through Git and GitHub in an Agile development environment.
- **Full Stack Development Intern | Infinite Pro Technology | Feb 2025 - Jun 2025**
 - Developed responsive interfaces using Next.js, React, TypeScript, and Tailwind CSS.
 - Supported backend development with Node.js and Express.js, including REST API implementation and frontend integration.
 - Managed component and shared application state using React Hooks and Zustand.

Projects

- **Nepal Denim - Client E-Commerce & Inventory Platform | Next.js, TypeScript, PostgreSQL, Prisma ORM, Vercel | Jul 2026 - Present**
 - Delivered a live client e-commerce platform with storefront, admin, product/content management, authentication, transactional email, multi-variant products, SEO, and production deployment. Live: nepaldenim.com
 - Designed a centralized Inventory Domain as the single source of truth, separating on-hand and reserved stock and routing reservation, release, fulfillment, and return through shared inventory operations.
 - Connected storefront and inventory through API-backed workflows, added cross-tab cart/session synchronization with BroadcastChannel, and optimized image delivery with next/image and Vercel Blob, maintaining ~90 Lighthouse Performance and 100 across other measured Lighthouse categories.
- **AI-Integrated E-Commerce | Next.js, TypeScript, Node.js, Express.js, MongoDB**
 - Developed AI-powered product search, review summarization, intent-based recommendations, FAQ generation, and chatbot functionality.
 - Implemented JWT authentication, role-based authorization, REST APIs, and MongoDB-backed application data.
- **Content Management System | MERN Stack, TypeScript, shadcn/ui, Tailwind CSS**
 - Developed an API-driven CMS for managing blogs, pages, media, and SEO metadata, replacing hard-coded website content with manageable application data.
- **Backend Automation Tool | Node.js, TypeScript**
 - Automated repetitive backend project initialization through a CLI tool, reducing setup time from hours to minutes.

Education

- **Bachelor in Computer Applications (BCA)**
Xavier International College, Kathmandu | Nov 2024 - Present

Certifications & Training

- Front End Development Libraries | freeCodeCamp
- Introduction to Computer Science (CS50) | Harvard University (Online)
- Introduction to Python Programming Language | Harvard University (Online)
